Service 4 Wheel Steer Message with DTC C0455

When servicing the vehicle with the VIN you entered, the following diagnosis might be helpful if the vehicle exhibits the described symptoms.

**Condition/Concern:**

Concern of a service 4 wheel steer message and DTC C0455. The steering wheel position sensor uses G203 as its ground. G203 is a body ground at the left side of the i/p, near the A-pillar, below the I/P top cover. The body of the vehicle is grounded back to the engine/battery through a braided ground strap. The ground strap attaches to the cowl at G107 and the other end is attached to the left rear of the engine block at G104.

**Recommendation/Instructions:**

When diagnosing a vehicle with a C0455, make sure both ends of the ground strap (G107 and G104) and G203 are clean and tight.

Please follow this diagnosis process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed. If these steps do not resolve the condition, please contact GM TAC for further diagnostic assistance. This diagnostic approach was developed for the vehicle with the VIN you entered and should not be automatically be used for other vehicles with similar symptoms.

**Models:**

(02-04 Sierra Denali) and (02-04 Chev Silverado Ext Cab S/B 1500) and (02-04 GMC Sierra Ext Cab S/B 1500 ) and (03-04 GMC Sierra Crew Cab HD 1500) and (03-04 Chev Silverado Crew Cab HD 1500) and (03-04 GMC Yukon XL 2500 ) and (03-04 Chevrolet Suburban 2500)
